A TRIBUTE TO THE CHIEF

by Bill Scott, MP

The Right Honourable John George Diefenbaker died at his Ottawa home on Thursday morning, Aug. 16th. The Chief was 83, just 34 days away from his 84th birthday on Sept. 18. The apparent cause of death was a massive heart attack, which occurred at about 6:30 a.m. Mr. Diefenbaker, always an early riser, had been up since 5:30 and was working in his study for about an hour when death occurred. His body was discovered by a friend who was staying with him and his housekeeper.

Mr. Diefenbaker was the oldest parliamentarian in Canada, having been continuously a Member of Parliament since his election in 1940, although he had run unsuccessfully twice before, in the general elections of 1925 and 1926, before finally being elected in the general election of March 26, 1940. He had been re-elected in every subsequent election since, most recently of course on May 22 of this year, which was the 13th consecutive general election that he had successfully contested.

The high point of Mr. Diefenbaker's parliamentary and public career came in 1956, when he was chosen national leader of the Progressive Conservative party of Canada, and a year later, in June of 1957, led the party to victory in the general election of that year and became the first Progressive Conservative prime minister that the country had had since 1935. Mr. Diefenbaker had also run unsuccessfully for the leadership twice before being chosen in 1956, but in 1957, his losing days seemed to be behind him. The following spring, in March, 1958, he called a general election and appealed to the people for a strong mandate. The results of that election made history. John Diefenbaker and the Progressive Conservative party were returned by an overwhelming 208 out of 265 House of Commons seats. No prime minister in Canadian history had before, or has since ever won such a majority.

Throughout his long public career, first as a criminal lawyer in Saskatchewan and then as a parliamentarian, Mr. Diefenbaker was most noted for his concern for the ordinary, common man. This was best exemplified in what I consider to be his greatest parliamentary achievement, the Canadian Bill of Rights of 1960. This still remains as the only time in the constitutional history of Canada that the fundamental rights and freedoms of the individual have ever been codified in Canadian statutes.

The Bill of Rights was what John Diefenbaker really believed in his heart and what he practiced throughout his entire life. The Chief was without a doubt truly one of the great Canadians of our history. He dominated the political life of the nation for almost four decades. A social progressive as the prime minister, he was responsible for many of the reforms and improvements which we now take for granted.

Above all, John George Diefenbaker was first, last and foremost a Canadian. Born in Neustadt, Ontario, of German and Scottish parents, he always proudly referred to himself as just a "Canadian" and stoutly maintained that that was all that was required; Canadians didn't have to call themselves French-Canadians, German-Canadians, Irish-Canadians, Ital-

Ride the Wild Sailboard for fun, excitement

Sailboarding has become one of the most popular summer sports in Ontario this year and it appears that Haliburton County is no exception. There are about 7500 boards in Canada with some 6,000 of them sold this year. The sailboard is a 12 foot long, 40 pound plastic shell, injected with polyurethane foam that resembles a surfboard. Attached to it is a colourful, free-standing sail,

which means if the one-man crew standing on the board doesn't keep his balance against the wind, the whole thing will go tumbling into the water. There is a sailboarding school in the County if anyone would like to learn the sport. It is known as International Windsurfer Sailing School and there are two classes each week. For more information call Nick after 6 pm at 754-2461.

Solar heated building will be built in Haliburton

Haliburton will become the site of a new, experimental solar-heated office and storage building. The facility will be erected by Parks Canada for its crew of six men and will become the first structure in Ontario to be heated by solar energy for the department.

The present area branch office, which handles local Trent-Severn reservoir lakes, is located in the Bishop building in Haliburton village, and is not adequate for storing stop logs or making repairs to the

ian-Canadians, Polish-Canadians, etc. One Canada, one nation of one people, all Canadians, was his life-long credo. John Diefenbaker is probably the one person who was principally responsible for making the "hyphenated-Canadian" concept, as he always derisively called it, obsolete in Canada.

John George Diefenbaker, 1895-1979. Parliamentarian, statesman, humanitarian, champion of justice, defender of the common man, historian, author, orator traveller, a genuine, sincere, proud, loyal great Canadian.

We will never see his like again.

equipment. Logs are currently stored on private property and repair work is done outside.

"The main reason we decided to build a new office in Haliburton was to combine both a storage area and office," said chief Parks Canada district engineer, Wayne Pacey.

The Federal government, according to Pacey, is experimenting with solar heating for pioneer companies engaged in the business and consequently many new government office buildings will be constructed with solar energy systems.

Producers
Taking a
Bum Rap

By W. Roger Worth

Canada's farmers and fishermen have been taking a bum rap from consumers who continually lay the blame for rising food prices at the dock-

side, or at the farm gate.

Bluntly stated, a lot of the complainers don't know what they are talking about. In fact, Canadians are among the best fed people in the world, and at prices that are among the lowest in the world.

It's true, food prices have been rising at an inordinate

Roger Worth is Director,
Public Affairs,
Canadian Federation of
Independent Business.

rate during the past couple of years, but so have the producers' costs.

Certainly, farmers and

fishermen having been faring well of late, but that's the nature of the business. Producers earn a great deal of money in the good years, hopefully offsetting losses in the lean periods.

Some misinformed city-slicker complainers are bright enough to remain silent when food prices are dropping, and producers are in trouble.

While there may be room for complaints about the inadequacies and pricing policies of the nation's processing and distribution system, overall, consumers are getting food at reasonable cost.

Much has been made of the fact that it now costs \$61 per week to feed a family of four people in Canada. Atrocious, some consumers would say.

Yet Canadians only spend about 22% of take-home pay on food. The complainers should look at Japan, where families spend as much as 40% of income on food. Or Europe, where it's not considered unreasonable if food costs surpass 30% - 35% of family income.

Canadian consumers complain about hamburger at \$2.50 - \$3 per pound. Yet the same product in Tokyo appears on retail store shelves priced at \$10 - \$15 per pound. And the Japanese don't complain.

What's important to note, particularly considering the energy crunch, is that North Americans have not been faced with outright shortages of food. The producers are doing their job.

Rather than complaints, Canadian consumers should be patting farmers and fishermen on the back. They deserve a break.

THE TOWNSHIP OF STANHOPE APPOINTMENT FOR HEARING

IN THE MATTER OF Section 35 of THE PLANNING ACT
(R.S.O. 1970, c. 349),

— and —

IN THE MATTER OF an application by
The Corporation of the Township of Stanhope
for approval of its Restricted Area By-law 78-23

APPOINTMENT OF HEARING

THE ONTARIO MUNICIPAL BOARD hereby appoints, Monday, the
24th day of September, 1979 at the hour of one o'clock (local time)
in the afternoon at the Stanhope Township Municipal Office, Hamlet
of Maple Lake, for the hearing of all parties interested in supporting
or opposing this application.

If you do not attend and are not represented at this hearing, the
Board may proceed in your absence and you will not be entitled to
any further notice of the proceedings.

In the event the decision is reserved, persons taking part in the hear-
ing may request a copy of the decision from the presiding Board Mem-
ber. Such decision will be mailed to you when available.

DATED at Toronto this 31st day of July, 1979.

Explanatory Note

This By-law, which amends Restricted Area By-law No. 77-15, which
was passed by the Council of the Corporation of the Township of Stan-
hope on May 11, 1977 and a copy of which was sent to every Ratepayer
on July 25, 1977, generally applies to all land within the Corporation
of the Township of Stanhope yet deals with some site specific matters.
The purpose of this By-law Amendment is to resolve appropriate ob-
jections received from Ratepayers pertaining to By-law No. 77-15; and,
to upgrade some particular provisions and language of By-law No.
77-15.

It should be noted that the original By-law being Restricted Area By-
law No. 77-15, which was mailed to all Ratepayers on July 25, 1977,
may be viewed by any and all individuals at the Township Municipal
Office during normal working hours.

This By-law Amendment is divided into a number of clauses which
amends certain sections, subsections and plates of Restricted Area
By-law No. 77-15. It is suggested that the reader refer to each clause
within the attached By-law when reviewing the following explanation.

Clause 1 — The language was changed slightly for clarification so
that an O.L.S. survey, although still required, must be
sufficiently clear and detailed but that the survey will
not be registered.

Clause 2 — Certain lands in Lot 30, Concession V were previously
classified specifically for an airport facility. This situa-
tion no longer exists and therefore reference to the spe-
cific site was deleted.

Clause 3 — A separate distance for clear-cutting or stripping via log-
ging operations was established in close proximity to
Residential Zones. The language was also clarified which
would specifically permit selective cutting practices with-
in the separation distance.

Clause 4 — This subsection was amended to correct a minor typing
error, and the provision remains otherwise unchanged.

Clause 5 — This subsection was modified to permit a private cabin
within the Shoreline Residential Zone in conjunction
with either a seasonal dwelling house or a single-family
dwelling house. Previously such a cabin was permitted
only with a seasonal dwelling.

Clause 6 — This Subsection was modified to permit a seasonal or
single-family dwelling house on a private road under
specified conditions. Previously only a seasonal dwelling
was permitted on a private roadway.

Clause 7 — The definition was modified so that a single-family dwel-
ling, by definition, would be equated to a dwelling used
and occupied as a permanent home.

Clause 8 — The definition was modified so that a seasonal dwelling,
by definition, would be equated to a cottage.

Clause 9 — Minor zone classification changes were undertaken as a
result of public objection input and subsequent Council
decisions. The specific sites are denoted in Appendix 1
and 2 of this Explanatory Note.

Clause 10 — This modification is correcting a typing error which re-
ferred to an improper footnote.

Clause 11 — This modification is correcting a typing error which re-
ferred to an improper footnote.

Clause 12 — This is the enactment portion of the By-law Amendment.

That's because your deposit on a new leased car can be substantially less than what you'd put down to buy a new car. What's more, you'll never fret over what your lease car is worth at trade-in time because your car will never get too old.

Each monthly leasing payment also covers such costs of enjoying a new car as financing, depreciation, taxes.

There are other solid reasons for leasing a new Chevrolet from us. So, come on in. Let's discuss the lease plan ... and that new Chevrolet ... that fit your needs.
